ANNOUNCEMENTS

BREED THEATRE.

Drink and Regeneration Theme of New Metro Play The Devil at His Elbow, Feature for Today and Saturday.

The Devil at His Elbow is the unusual title of an unusual five part Metro wonderplay in which Clifford Bruce and Dorothy Green are starred and which is the feature at the Breed theatre today and Saturday. This big production teaches a tremendous lesson in the question of the drink evil. Whether you drink or whether you are a total abstainer makes no difference. The question is live issue in every city in the country. The value of The Devil at His Elbow lies first in its power, second in its human appeal and third, and third in its tremendous lesson.

Dorothy Green, well known to Broadway, plays the role of a woman of the streets, who lifts a brilliant man from the gutter, and then, fearing she is losing his love, she drags him down again, and tragedy results. Her work in this picture is devilish in its realism. She is a female satyr. Clifford Bruce is a man of the streets, who lifts a brilliant man from the gutter, and then, fearing she is losing his love, she drags him down again, and tragedy results. Her work in this picture is devilish in its realism. She is a female satyr.

The Breed will also present the Metro Travelogue, showing scenes in their home, and the great American turtle, and Mr. and Mrs. Sidney Drew in a very funny one reel comedy entitled The Schemers. Completed the bill for today and Saturday. Matinee at 2.30 and evenings at 7 and 9.30.

AT THE AUDITORIUM.

Another Complete Change of Program Today—Third Episode Beatrice Fairfax.

The Homan Musical Comedy company will again today change their bill and will present the laughable comedy Casey's Night Out, a very amusing farce full of bright lines and excellent musical numbers. On the picture program will be Peggy Hyland in a picturization of Henry Arthur Jones' popular play, Saints and Sinners, produced in six stirring reels by the Famous Players company.

The great distinction and success that this powerful play has attained on the stages of every English-speaking country of the globe, added to its unusual pictorial possibilities, make this subject an unique photograph offering. But besides these details of more than ordinary interest, added importance attaches to the production because it depicts British star, Peggy Hyland, as appears on the screen in the role of Letty, the central character, about whom the absorbing and thrilling story revolves. Miss Hyland's charm and dramatic talents combine to make the characterization one to be long remembered. Altogether, the extraordinary conjunction of star and play contributes to make this photoplay one of the most important ever offered by the Famous Players Film company in the Paramount program.

The third episode of the serial photoplay Beatrice Fairfax, taken from the story now running in the Boston and New York Sunday Americans, will be shown on the picture screen today and tomorrow also.

BULLETIN'S PATTERN SERVICE

UP TO DATE AND BECOMING.

This stylish model is composed of tailored Waist and Long Skirt Pattern 1811. As here shown, embodying in a pretty shade of grey when used. The skirt fronts are full over the center, and join shaped side pieces. The skirt has broad front and back panels, to which yoke sections are joined, which are lengthened by full pieces over the sides. The sleeve has a deep shaped cuff, which may be finished with a facing. The waist pattern is cut in seven sizes: 32, 34, 36, 38, 40, 42 and 44 inches, bust measure. The skirt is cut in seven sizes: 22, 24, 26, 28, 30, 32 and 34 inches, waist measure. It will require 7 yards of 44-inch material for the entire dress for a medium size. The skirt measures about 4 1/2 yards at the foot.

This illustration calls for TWO separate patterns, which will be mailed to any address on receipt of 10 cents for EACH pattern, in silver top stamps. Order through The Bulletin Company, Pattern Dept., Norwich, Conn.

In the Social Whirl.
The "two-two" is the name of the newest dance in the hupper sucken. According to all accounts, it is just too utterly too two—Macdon. Telegraph.

Awful Thought.
The price of bread is rising, rising every day. Soon the bars will sell the pretzel and give the beer away—Louisville Courier-Journal.

NORWICH TOWN

Earl Kinney's Death Saddens Young Associates—Miss Sarah M. Freeman of Troy Tracing Huntington Ancestry—Birthdays Dinner Party.

Earl Kinney of Town street, whose death was noted in Thursday's Bulletin, was a member of Miss Jessie E. Hyde's Sunday school class. He was president of the club the class organized, the W. I. T., and was getting to be a leader among them, growing more and more dependable and able to take responsibility. He was loved by many friends who are saddened by his sudden death.

Great-Grandmother a Huntington.

Miss Sarah March Freeman of Troy, N. Y., who has been spending the summer in the vicinity of Westerly, was up town Thursday to look up the Christopher Huntington line. Her great-grandmother was a Huntington who married at the time of the Revolution and went to Hanover, N. H. The trip was made on horseback, and the interest Miss Freeman visited was the old cemetery, the green, the Christopher Huntington house and historic places at Hanover's Corner.

Family Party.

Harry Winchester of Hartford motored to the vicinity of the week. His brother Tyler of Williamstown and Raymond from the U. S. S. Itasca met at their parents' home on Town street, where a dinner was given, friends from Golden Spur and Norwich being members of the party also.

Birthday Dinner.

Mrs. E. E. Bullard gave a family dinner of 17 covers Tuesday evening at her home on Washington street. Her mother's birthday. Mrs. Carpenter received flowers and other gifts in honor of the day. A social evening which included games was passed.

Noted Here and There.

There will be October and first Friday devotions at Sacred Heart church this evening.

Mrs. James McKee of Eliza place was in Williamstown to attend the state convention of the King's Daughters.

Mr. and Mrs. G. W. Guard motored to North Spencer, N. Y., to visit Mrs. Guard's parents, Mr. and Mrs. Titus.

Mr. and Mrs. Peter Hansen of Hartford were recent guests of Mr. and Mrs. Anthony Jacobson of Sturtevant street.

Mr. and Mrs. Daniel Chaffee of Hartford were guests of the first of the week of Miss Katherine D. Smith of Washington street.

Raymond Ewing of Elm avenue leaves the last of the week for Ithaca, N. Y., to begin the second year of study at Cornell university.

Rev. and Mrs. J. W. Areson and daughter of Yantic come the last of the week to Mr. William Areson's house on Washington street for the winter.

Mrs. Emily Rix and Miss Lucy Saunders of Washington street are in Voluntary for a few days' visit. While there they will attend the wedding of a friend.

Mrs. Emma Tobey of Boston has been spending the week with Mr. and Mrs. Rutherford H. Snow of Huntington avenue. Mr. and Mrs. Snow will return with her to Boston for the week end, making the trip in their car.

A DECIMAL SYSTEM

Is Being Considered—Also a Metric System of Weights and Measures.

London, Oct. 5.—The suggestion that Great Britain shall adopt after the war a decimal system of coinage patterned after that in use in the United States is receiving a cordial consideration. There is recurring discussion also of adopting a metric system of weights and measures.

It is pointed out, however, that there are manifold difficulties connected with metric weights and measures which do not apply in any way to the proposed American plan of coinage. The latter change could be made with a minimum of disturbance and probably with the acquiescence of just the classes who in the past have been the chief opponents to various plans proposed.

The poor man in the street generally has the deciding voice in changes of this kind and he must be educated with patience and logic. The argument, he objected to abolishing the Gregorian calendar on the ground that it would in some way rob him of his certain number of lost days. He protested against turning up the clock an hour on the ground that it was a scheme to make him work an hour longer each day.

It is realized here that any proposed change having the appearance of even a nominal impoverishment of the poor would be doomed to failure. Despite all arguments as to the simplification of financial arithmetic, both as to the mental process of making small change as well as in the larger field of commercial book-keeping.

The plan to adopt the American standard for the coinage has the appearance of really enhancing the value of the money.

For Catarrhal Deafness and Head Noises

Here in America there is much suffering from catarrh and head noises. American people would do well to consider the English method of combating this insidious disease.

Everyone knows how damp the English climate is and how this dampness affects those suffering from catarrh. In England the catarrh of the nose, throat and head noises as a constitutional disease and use an internal remedy for it that is really very efficacious.

Sufferers who could scarcely hear a watch tick tell how they had their hearing restored by this English treatment. Such an extent that the tick of a watch was plainly audible seven and eight feet away.

Therefore, if you know someone who is troubled with catarrh, catarrhal deafness or head noises, give them the formula and hand it to them and you will have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be easily prepared at home for about 70c and is made as follows:

From Lee & Osmond, or any druggist, obtain 1 oz. of Eucalypti (Eucalyptus) Strength), about 75c worth. Take this and add to it 1/2 pint of hot water and 4 ounces of granulated sugar; stir until dissolved. Take a tablespoonful four times a day.

Paracetamol is used in this way not only to reduce by tonic and antipyretic the inflammation and swelling in the Eustachian tubes, and thus to equalize the air pressure on the eardrums, but to correct any excess of secretions in the middle ear, and the results it gives are usually remarkably quick and effective.

Every person who has catarrh in any form should receive a trial and free themselves from this destructive disease.

LESS MEAT IF BACK AND KIDNEYS HURT

Take a glass of Salts to flush Kidneys if Bladder bothers you—Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys—they become overworked, get sluggish; clog up and cause all sorts of distress, particularly back-ache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, and uric acid, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about one ounce of Jax Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; and it cures all urinary troubles, such as urine so it no longer irritates, thus ending bladder disorders.

Jax Salts cannot injure anyone; a delightful after-dinner beverage, water drink which millions of men and women take now and then to keep the kidneys in good order, thus avoiding serious kidney disease.

Small coins to the extent of one cent in each shilling. This is how it would work out.

One pound, or sovereign, would become 35. The ten shilling note would be issued as £2.50, the four shilling piece, or double shilling, would become one dollar, two shilling, or florin, would become 50 cents, the shilling a quarter, and the penny would equal two cents, and the half penny would be called one cent.

If the pound sterling, or sovereign, should remain the standard British unit, it is proposed that such notes and coins should have the double designation stamped thereon, the pound being marked as such on one side and as 35 on the reverse face.

As to saving money for the poor, it is pointed out that under this system all half penny articles could be bought for 1-100th of the standard gold coin instead of 1-200th as at present, and prices would to that extent be scaled down. Another argument in favor of the dollar decimal system is that it would standardize the coinage of Great Britain and Canada, her great colony.

New Britain—Prof. David N. Camp of New Britain celebrated his 95th birthday Tuesday.
